

2014 MID-YEAR NEW PRODUCTS

PROPELLANT

Reloder 23

To achieve outstanding accuracy in the widest range of conditions, shooters need propellant that performs consistently across temperature extremes. Like its sister product, AR-Comp™, new Reloder® 23 from Alliant Powder® does exactly that. Its sophisticated TZ® technology manipulates the response of the material and resists the natural tendency to generate more pressure at higher temperatures and less pressure at lower temperatures. Reloder 23 is perfect for long-range target shooters seeking performance similar to Reloder® 22 with world-class temperature stability.

Features & Benefits

- TZ technology provides exceptionally consistent velocities across temperature extremes
- Contains proprietary de-coppering additive
- Ideal for long-range target shooting
- Excellent lot-to-lot consistency
- Formulation contains no DNT or DPB
- Made in Sweden for Alliant Powder

Part No.	Description	UPC	MSRP
150685	Reloder 23; 1-pound bottle	0-08307-99001-7	\$25.95
150686	Reloder 23; 8-pound canister	0-08307-99008-6	\$189.95
