HOLSTERS

EPOCH™ Level 3 Light Bearing Duty Holster

The EPOCH Holster delivers three levels of weapon retention. The patent-pending retention system engages the pistol's ejection port when holstered and won't let go until you release it. As an added safety measure, the Pivot Guard opens by thumb activation and is designed so it won't close accidentally and lock you out of the holster. This unique design accommodates popular under-barrel lights such as the TLR-1 and X300 for added versatility. Of course, reinforcing learned skills by focusing on proper grip is a signature of BLACKHAWK![®] holster design. The placement of the EPOCH Auto Lock release and an index finger indent reinforce a full master grip by allowing the shooter to draw the firearm with the index finger and thumb in proper alignment.

Features & Benefits

- Passive retention detent screw
- EPOCH™ Auto Lock™ thumb release (patent pending)
- Thumb-activated Pivot Guard and Ejection-Port Lock
- Fits popular lights (TLR-1, TLR-2 and X300)
- Reinforces full master grip
- No snaps or hoods to accidentally open
- Includes Jacket Slot Duty Belt Loop
- Fits all BLACKHAWK![®] Injection Molded Platforms
