

2015 NEW PRODUCTS

VARMINT

A17 Varmint Tip

Shooters can now get magnum rimfire performance in a semi-automatic rifle, thanks to new CCI[®] A17 Varmint Tip ammunition. CCI engineers literally built this 17 HMR load around the A17 rifle from Savage Arms[™]. The round is optimized for feeding and function in the all-new semi-automatic rifle, and produces muzzle velocities 100 fps faster than other 17 HMR loads with the same bullet weight. Its Varmint Tip bullet ensures explosive expansion and quick, clean kills.

Features & Benefits
