RIMFIRE RIFLE

A22 22 WMR

New CCI® A22 Magnum gets the most performance possible from the venerable 22 WMR cartridge. The light, 35-grain bullet boosts speed, while its GamePoint® design expands like a big game bullet on impact, maximizing terminal effects. CCI enhanced the round even further by building it around the new A22 Magnum semi-automatic rifle from Savage™. The rifle's action, thread-in headspace system and AccuTrigger™ allow for the ultimate 22 WMR reliability and accuracy. A22 ammunition also provides precise, consistent performance with other rifles chambered in 22 WMR.

Features & Benefits

- Built around the Savage A22 Magnum semi-automatic rifle
- GamePoint bullet expands reliably for maximum terminal effect
- 35-grain bullet weight yields a 2,100 fps muzzle velocity
- Reliable cycling and excellent accuracy
- CCI brass and priming
