

## 2020 NEW PRODUCTS

### Target & Plinking

### Clean-22 Steel Challenge

Clean up the competition. CCI® Clean-22™ Steel Challenge uses an exclusive polymer bullet coating to greatly reduce copper and lead fouling in the barrel—without leaving a residue. It also cuts lead buildup in suppressors 60 to 80 percent. The High Velocity load features a 40-grain round nose lead bullet with geometry that's been optimized for accuracy. With dependable CCI priming and consistent propellant, Clean-22 Steel Challenge provides flawless cycling through all 22 LR firearms. The USPSA Steel Challenge logo is displayed prominently on the box to support the organization's mission to promote participation in steel shooting competition.

### Features & Benefits
