Fusion Component Bullets

Handloaders can now roll their own with the bullet design that changed hunting ammunition forever. Fusion® component bullets provide the largest expansion and highest weight retention in their class. With a molecularly fused jacket and a pressure-formed core, Fusion transfers maximum energy on target and provides tag-filling accuracy. Now available in a full array of the most popular bullet diameters and weights.

Features & Benefits

- Copper jacket is electro-chemically applied for perfect uniformity
- Tough, pressure-formed lead core
- Boat-tail design for excellent accuracy
- Skived, pre-programmed nose provides consistent expansion
- Maximum weight retention for deep penetration
