TARGET SHOTSHELL

Gold Medal Grand

For decades, Gold Medal® shotshells have set the standard—and world records—for competitive trap, skeet and sporting clays shooters. For 2017, we've improved upon the industry-leading design with Gold Medal Grand™. The new loads produce less felt recoil, more reliable ignition, improved shot hardness and excellent reloadability—all with the same world-class performance shooters expect from Federal Premium® Ammunition.

Features & Benefits

- Two-piece wad utilizes SoftCell™ technology to decrease perceived recoil and produce more uniform patterns than one-piece designs
- Rigid PrimerLock™ head improves primer sensitivity, ensuring proper ignition in the event of a light hit
- Lead shot is engineered for the optimum blend of hardness and density for even patterns and maximum downrange power
- Integral base wad maximizes reloadability
