Hydra-Shok Component Bullets

The bullet design that's defined self-defense for a generation is now available as a component for handloaders. Introduced in 1989, Hydra-Shok® remains one of the most popular choices for protecting home and family, thanks to a proven hollow point and iconic center post that provide extremely consistent and effective expansion. Now available in a complete range of bullet weights and diameters.

Features & Benefits

- Proven self-defense bullet design now available as a component for reloading
- Superb accuracy and overall ballistic performance
- Notched copper jacket
- Center-post hollow-point design provides reliable expansion
