PREMIUM PERSONAL DEFENSE

Hydra-Shok Deep

Last year, we reinvented the proven Hydra-Shok® bullet design with Hydra-Shok Deep. Now we've expanded the line with new loads in 40 S&W and 45 Auto. Like the original 9mm Luger, the new offerings' design improvements better meet modern performance measurements. The bullets feature a more robust center post and a core design that penetrates to critical depths through common self-defense barriers, without over-penetrating.

Features & Benefits

- Now available in 40 S&W and 45 Auto
- Penetrates 15 inches in bare ballistics gel—the optimal depth according to FBI standards
- Improved penetration to optimal depths
- Significant improvement in FBI protocol score
- Iconic center post design has been improved for better, more consistent expansion through standard barriers
- Consistent, specially formulated propellant
- Extremely reliable Federal® primer
