

## 2020 NEW PRODUCTS

### Upland

### Prairie Storm 16 and 28 Gauge

Don't settle for sub-par performance from your sub-gauge shotgun. New 16- and 28-gauge Federal Premium® Prairie Storm® FS Lead loads use the updated FLITECONTROL FLEX® wad and a mixed payload of standard pellets and FLITESTOPPER® lead to produce full, consistent patterns from these smaller payloads. The improved wad design can be used through both ported and standard upland chokes for even better patterning and versatility.

#### What is it?

- New 16- and 28-gauge loads
- FLITECONTROL FLEX wad can be used through all upland chokes
- Payload mix of 70 percent standard copper-plated lead and 30 percent FLITESTOPPER lead produces even edge-to-edge patterns
- FLITESTOPPER pellets create bigger wound channels

#### Who wants it

- Upland hunters pursuing pheasants, doves and quail

#### Why do they want it?

- Increased popularity of 28- and 16-gauge products in recent years
- Multiple new guns on the market
- 16-gauge Prairie Storm is the No. 1 requested product from consumers in the shotshell category
- Status of hunting with sub-gauge shotguns
