Handgun Hunting

Solid Core

Take down anything from hogs to bears with Federal Premium® Solid Core. The all-new line of handgun loads hits game harder with a tough, flat-nose lead bullet that holds together while blowing through bone, providing high weight retention and deep penetration. Syntech® polymer jacket technology reduces the friction and leading that plague hard cast bullets.

Features & Benefits

- Deep-penetrating bullet built for tough game like bears and hogs
- Extremely hard lead core
- Syntech jacket eliminates lead fouling and reduces friction without costly features like wax rings and gas checks
- Powerful protection against aggressive bears and other dangerous animals
- Available in the most popular handgun hunting calibers
