.223/.556 BDC BTR-1

RIFLESCOPE - SHOOT, HUNT

AR OPTICS 1-8X24 ILLUMINATED

CONQUER THE FIELD AND THE RANGE WITH A DURABLE COMPACT OPTIC PAIRED WITH A BDC RETICLE

• ILLUMINATED .223/.556 BDC RETICLE

The Illuminated .223/.556 BTR-1 is a Bullet Drop Compensation (BDC) reticle that allows you to quickly find your holdovers out to 500yds.

• THROW DOWN PCR THROW LEVER

Quickly change the magnification with the attached folding throw lever. A short and long lever come in every box and can easily be changed out without the use of tools

• ENHANCED DUSK/DAWN PERFORMANCE

Fully Multi coated optics provide a brighter and clearer image at dusk and dawn when you need to see the most.

• 6 BRIGHTNESS SETTINGS OF ILLUMINATION

6 brightness levels of illumination to ensure your reticle stands out against any target. Dots in between the brightness levels turn the illumination off, saving you time when you want to turn illumination on and off.

• WATERPROOF IPX7 CONSTRUCTION

O-ring sealed optics stay dry inside, and are tested by being submerged in three feet of water for 30 minutes. This waterproof construction means you can continue your pursuit in even the nastiest of weather conditions.

PURPOSE-BUILT FOR:

Users that are in search of a low power variable optic with, tactical driven features, that can also be used as a BDC optic in the field.

IDEAL FOR:

- Range Use
- Plinking
- Hunting
