SHOT Show 2017

MARKET RELEASE DATE:
May 2016

Need more than one way to carry your binoculars? The Bushnell® Ultra-Light Binocular Harness is the answer. It can be worn five different ways, from a traditional harness, to side pull and sidesaddle setups. The Ultra-Light Binocular Harness is easy to use: it adjusts from a single point, and releases quickly for fast adjustments. One size fits all wearers.

FEATURES & BENEFITS

- » Can be worn five different ways
- » Quick-release hardware
- » Single-point adjustment
- » One size fits all
