

ASAP™ UNIVERSAL DOUBLE STACK LOADER

Self-loading magazines are still in the future. Butler Creek® has the next best thing. The ASAP™ Universal Double Stack Magazine loader works with a large majority of double stack magazines between .380 ACP - .45 ACP. Fill magazines with one action – push the mag loader down, insert the round below the feed lips, and raise the loader up. Bullet seated, magazine loaded. Just like that.

FEATURES:

- Works with most double stack magazines
- Uses only one action to load magazine
- Made in the USA
