

## Take Out Food Plot Seed - Brassica Mix

If one thought has guided Primos Hunting for over 40 years, it's this: If we can make something better, we will. That's why we're so proud to introduce new Take Out Brassica Mix Seed. Making it better started by knowing hunters better. And now more than ever, one thing is true: you don't have time or money to waste on something that won't work well for *you*. Our Brassica Mix gives you a fast-growing plot that keep deer coming back throughout the hunting season. This quality mix of Turnips, Canola, and Rape provides deer foods they crave with early-season protein, mid-season sugars, and late-season nutrients. It's designed for low-till planting, so only minimal ground prep with seed to soil contact is required to ensure optimal growth per square foot. Use the Brassica Mix as part of your Take out Seed & Feed System to implement a simple, proven, and effective plan in your area. Find out more at [primos.com/takeout](http://primos.com/takeout).
