

Take Out Red Zone - Long-Range Granular Mineral

Take Out Red Zone gives hunters in every region and condition a granular mineral that reaches out with a strong aroma to quickly attract bucks for long-range. Its sustained release formula draws deer in and keep them coming back to paw and dig for the minerals they crave. Fortified with key minerals, Red Zone helps boost bone and antler growth and strengthen the quality of your herd. Use it as part of your Take out Seed & Feed System to implement a simple, proven, and effective plan in your area. Find out more at primos.com/takeout.
