Illuminated Truplex Reticle w/ .5-MOA dot

Non-Illuminated Truplex Reticle

Nothing beats edge-to-edge image clarity, which is what Simmons® AETEC riflescopes deliver. Simmons® was the first to bring Aspherical Lens technology to riflescopes. Aspherical lenses provide flat, distortion-free images. Available with a standard or illuminated Truplex reticle and exposed or capped turrets, AETEC riflescopes appeal to shooters of every discipline. It's impossible to find more technology at a better price.

## FEATURES
