

# 2015 NEW PRODUCTS

## RANGEFINDERS

### ***Volt 600 and Volt 600 Tilt***

The new Volt 600 and Volt 600 Tilt laser rangefinders from Simmons® offer blazing-fast ranging and easy operation at the moment of truth. They provide precise distances from 10 to 600 yards and powerful 4x magnification with bright, clear optics for dawn and dusk use. For even greater confidence and accuracy, the Volt 600 Tilt uses the innovative Tilt Intelligence™ feature to provide line of sight distance plus the true horizontal distance of the shot for increased accuracy at steep inclines or declines. The Volt 600: Bragging rights at the push of a button.

### **Features & Benefits**

- 4x magnification allows precise ranging
- 600-yard ranging performance for bow and gun hunting
- +/- 1-yard accuracy
- Tilt version provides line of sight and true horizontal distance
- Simple one-button operation
- 9-Volt battery
- Measures distance in yards or meters
