PERSONAL PROTECTION HANDGUN

Gold Dot Personal Protection 10mm Auto

Speer® Gold Dot® ammunition's reliability has made it the No. 1 choice for law enforcement, and we offer the same performance for self-defense. The line is now even stronger with the addition of a powerful 10mm Auto load that takes advantage of the cartridge's capability. While most 10mm Auto offerings produce ballistics similar to those of 40 S&W, Gold Dot's 200-grain bullet is loaded for optimal performance from the cartridge. Like all Gold Dot loads, its bullet is built using Speer's exclusive Uni-Cor® method. The jacket is bonded to the core one molecule at a time, virtually eliminating core-jacket separation and creating a precision hollow point that is accurate, tough and unbelievably consistent through all common barriers.

Features & Benefits

- New power-packed 10mm Auto load
- Consistent penetration and expansion through common barriers
- Extremely uniform jacket maximizes accuracy
- Gold Dot technology virtually eliminates core-jacket separation
- Nickel-plated brass
- Reliable, sensitive CCI® primer
