RIFLE BULLETS

Grand Slam

With a tapered, precision-drawn jacket and a long nose, the Grand Slam® bullet is engineered to blow through the thick hides, heavy bones and tough bodies of the world's biggest game—without sacrificing accuracy. On impact, internal jacket flutes allow consistent expansion, yet the bullet retains most of its weight for deep penetration every time. Now available in an even wider array of bullet diameters, including a 140-grain 6.5mm, 100-grain 243 cal. and 120-grain 257 cal.

Features & Benefits

- New 6.5mm, 243 cal. and 257 cal. offerings
- A tapered, precision-drawn jacket
- Internal jacket flutes
- Long nose profile for flatter trajectories
- Exceptional accuracy
- 50-count packs
