HOLSTERS

Concealment Holsters for Springfield XD-S

Small, single-stack, slim-frame handguns have become the go-to option for countless concealed carry permit holders. In response, BLACKHAWK![®] has expanded its holster line to include several new SERPA[®] and Standard models, including holsters to accommodate the popular 3.3-inch Springfield XD-S pistol. Featuring a unique speed-cut design, the BLACKHAWK![®] CQC[®] SERPA Holster has forged a strong reputation for a fast, smooth draw and easy re-holster without slowing you down. The patented SERPA Auto Lock[™] release delivers unparalleled weapon security and is automatically positioned to facilitate a correct drawing motion, making it the perfect Level 2 retention holster for concealed carry. The Standard model holster features the same fit, passive retention screw and speed-cut design, but without the SERPA[®] Auto Lock[™] release.

Features & Benefits

- Passive retention detent adjustment screw
- SERPA[®] Auto Lock[™] release (SERPA models only) provides immediate retention and audible click upon re-holster for security
- Reinforces full master grip and superior draw technique
- Speed-cut design allows rapid draw, target acquisition and re-holster while keeping eyes on target
- Includes belt loop and paddle platform
