Blazer 10mm Auto

Full-power practice begins here. New Blazer[®] Brass 10mm Auto pushes its 180-grain FMJ bullet fast for accurate, realistic training. The loads use reliable brass cases and non-corrosive, non-mercuric CCI[®] primers for clean, reliable ignition and consistent ballistics.

Features & Benefits

- New 10mm Auto option
- Reloadable brass cases
- Reliable cycling
- FMJ bullet provides consistent accuracy for the range
- CCI primer
