

2019 NEW PRODUCTS

CENTERFIRE RIFLE

350 Legend

Blow the doors off straight-walls. The new 350 Legend offers higher velocities than any straight-wall deer cartridge, with significantly less recoil than 450 Bushmaster in a compact, maneuverable platform. It's an ideal fit for both MSRs and bolt-action rifles, penetrates deep and delivers ample energy to take down any buck. Federal® has harnessed all the 350 Legend has to offer with three new loads in our Fusion®, Power-Shok® and Non-Typical® lines. All get peak accuracy and terminal performance from the round thanks to consistent bullet designs that expand reliably at 350 Legend velocities.

Features & Benefits

- Fastest straight-wall deer cartridge ever made
- Significantly less recoil than 450 Bushmaster and more energy than 223 Rem.
- Superior ballistics in a compact, fast-handling firearm platform
- Legal for hunting in many areas bottleneck centerfire rifle cartridges are prohibited
- Fusion offers best-in-class expansion
- Non-Typical is specifically built for deer hunters
- Power-Shok provides versatile, reliable performance on a wide range of medium game
