

ELD-X

Real-world hunts are unpredictable, and we don't get to choose where game appears. Be ready to make any shot and deliver tag-filling terminal performance with Federal Premium® ammunition loaded with ELD-X® bullets. The match-accurate, hard-hitting hunting projectile stands apart thanks to an extremely high ballistic coefficient and a design that provides dynamic expansion at a wide range of velocities. It features a concentric copper jacket and robust shank, as well as a unique polymer tip that resists deformation to achieve consistent ballistics and initiate extreme-range expansion.

FEATURES & BENEFITS

- Aerodynamic secant ogive
- Polymer tip resists deformation and initiates expansion
- Heavy-for-caliber bullets improve downrange stability
- Specially formulated propellant
- Nickel-plated brass
- Robust jacket shank
- Extremely high ballistic coefficient
- Concentric and consistent copper jacket
- Optimized boat-tail
- Now available in 6.5 PRC and 7mm PRC
