

## 2021 NEW PRODUCTS

### Muzzleloading

#### FireStick 80-Grain Equivalent

Hunters now have an 80-grain option when using Federal Premium® FireStick™. The polymer capsule is filled with clean-burning Hodgdon® Triple Eight™ powder and charges from the breech of the Traditions™ NitroFire™ rifle, with the bullet loaded from the muzzle. It is impervious to moisture and built to the same tight tolerances as Federal Premium factory ammunition for consistency and accuracy muzzleloaders have never experienced. FireStick de-charges quickly, simply and safely by slipping out of the breech—there's no need to fire the rifle.

#### Features & Benefits

- New 80-grain equivalent polymer charge filled with clean-burning Hodgdon Triple Eight powder
- Charges from the breech of the Traditions NitroFire rifle
- Bullet loads from the muzzle
- Totally impervious to moisture and the elements
- Same tight tolerances and quality controls as loaded ammunition
- Fast, effortless charging and de-charging
- Shooter inserts 209 shotgun primer (not included)
