Rimfire Personal Defense

Punch 22 LR

Self-defense isn't one size fits all. Different shooters have different needs, different limitations and different firearms. Yet for all of those variables, 22 Long Rifle has never been an option—until now. Introducing Punch™ 22 LR from Federal Premium. The first-of-its-kind 29-grain nickel-plated lead-core bullet is pushed at maximum velocities for the deepest penetration through short-barrel handguns. So, whether you want to carry a 22 LR pistol as a backup gun, don't feel comfortable with centerfire pistols, or simply want to get more versatility from your rimfire, Punch makes the 22 LR cartridge a viable choice for the first time ever.

Features & Benefits

- Maximum velocity for energy and penetration; 1,070 fps through 2-inch barrel handguns, 1,650 fps out of 24-inch rifle barrels
- 29-grain nickel-plated lead-core bullet
- Projectile profile and composition optimized for the deepest penetration through short-barrel handguns
- Rigorous function testing ensures reliability
- Nickel-plated case for ease of extraction and corrosion resistance
- 50-count boxes
