Swift A-Frame 327 Federal & 10mm Auto

Expand the possibilities to fill your tag with an even wider selection of Swift® A-Frame® loads. New offerings in 327 Federal and 10mm Auto leverage the A-Frame's unique makeup for lethal performance on medium and big game. The bullet's bonded front half expands consistently across a broad velocity range, while the back half remains intact for deep penetration.

Features & Benefits

- New 100-grain 327 Federal and 200-grain 10mm Auto loads
- Expansion-arresting A-Frame design
- Nickel-plated case prevents corrosion and helps extraction
- Back half of the bullet remains intact for deep penetration
- Bonded front half expands consistently across a broad velocity range
- Specially formulated propellant
- High-performance primer
