

AIRVAULT

AIRVAULT

Long-term firearm protection doesn't get easier than this. Just insert, zip and store your firearm for the ultimate protection. Hoppe's AirVault™ incorporates VCI technology, a proprietary blend of corrosion inhibitors, woven throughout the interior of the bag. The AirVault™ protects firearms by creating a molecular barrier against the corrosive effects of moisture, salt, and other contaminants. To store a firearm, simply clean the firearm per the manufacturer's recommendation, place the unloaded firearm in the AirVault™ bag and securely press zipper closed. Store the firearm in the AirVault™ in a cool, dry place away from direct sunlight.

- Protects a clean firearm from rust for up to five years*
- Firearm ready to use right out of the bag
- No residue left on firearm
- No additional chemicals needed to activate rust protection
- Airtight bag protects firearm from moisture, dirt, and dust
- Reusable for years of protection

*When properly cleaned prior to storage.
