

NIGHT OPTICS

SVTS THERMAL RIFLESCOPES

MARKET RELEASE DATE:

June 2018

The new Night Optics® SVTS riflescope line is the world's first continuous calibration thermal rifle scope line. Continuous calibration assures the screen will not freeze at a critical moment. The addition of Heat Tracker quickly identifies the next target with an arrow pointing to targets outside of the visible screen. The quick select menu, waterproof construction, and multiple reticle choices ensure fast target acquisition and accuracy in adverse weather conditions.

- **RECOIL-ACTIVATED RECORDING** - Constantly-recorded video is automatically saved 10 seconds before and 10 seconds after a shot is fired.
- **CONTINUOUS CALIBRATION**- The screen will not freeze when you're ready to shoot.
- **HEAT TRACKER**- Quickly identify the next target with an arrow pointing to targets outside of the visible screen.
- **FUSION (SVTS 80 ONLY)** - Digital night vision with thermal overlay. Quickly detect targets with thermal and identify with digital night vision.
- **SNAP BACK**- Shot-sensing technology allows the scope to zoom out for reacquiring targets.

SKU	DESCRIPTION	REPLACES	CORE RES.	DISPLAY RES.	ZOOM	HORIZONTAL POV	EYE RELIEF	WEIGHT/LENGTH	UPC	MSRP
SVTS-80	Fusion NV/Thermal Rifle Scope	N/A	80 x 60	390 x 390	1x	18°thermal 54° NV	2 in	TBD	TBD	\$1,199.00
