

UMC 327 Federal Magnum

The 327 Federal Magnum cartridge offers similar performance to the 357 magnum cartridge but in a smaller overall size that allows a greater number of rounds in the same size handgun, or it can be packaged in a smaller size handgun that is easier to carry. The 327 Federal Magnum cartridge is now available in Remington UMC in a JSP (Jacketed Soft Point) bullet that can be used for hunting, defense, and target shooting. UMC handgun ammunition is made with first-quality, factory-fresh brass and clean-shooting Kleanbore® primers to provide the best value available.

FEATURES

- Dependable functioning in all actions
- Reliable ammunition for high volume shooting
- Jacketed Soft Point bullet provides excellent accuracy and stopping power
- All Remington handgun ammunition is American-made in Lonoke, Arkansas
