

NITRO PHEASANT

Rooster! To bring down tough upland birds with confidence, you need the best pheasant ammunition on the market. Made with copper-plated magnum-grade high antimony lead, Nitro Pheasant's Copper-Lokt Shot produces dense, dependable patterns and retains lethal energy downfield to take down the biggest birds with ease. Available in high-velocity and magnum loads in both 12- and 20-gauges, Nitro Pheasant® is Remington's best shell for upland game at any range. Your bird dog will thank you.

FEATURES

- Copper-Lokt Shot – Magnum grade, the hardest lead Remington makes for hunting
- Copper-Lokt Shot stays round for true flight, tight patterns and greater penetration
- Patented Power Piston Wad® – Protects and cushions shot for dependable patterns over a wide range of field hunting conditions
- Premier-tier components – High-brass head, unibody hull, and a special blend of propellants for high performance patterns and velocity
- Available in high velocity and magnum loads in 12 and 20 gauge
