RETICLE (SFP)

RIFLESCOPE – HUNT, SHOOT

AR OPTICS 4.5-18x40 MULTI-TURRET ILLUMINATED

CONQUER THE FIELD AND THE RANGE WITH A HIGH CONTRAST RETICLE AND CALIBER SPECIFIC TURRETS

• ILLUMINATED WINDHOLD RETICLE

An illuminated center crosshair allows for easier target acquisition and easier holdovers, ensuring you spend less time finding your target and more time focusing on pulling the trigger

• THROW DOWN PCR THROW LEVER

Quickly change the magnification with the attached folding throw lever. A short and long lever come in every box and can easily be switched out without the use of tools

• ENHANCED DUSK/DAWN PERFORMANCE

Fully Multi coated optics provide a brighter and clearer image at dusk and dawn when you need to see the most.

• 6 BRIGHTNESS SETTINGS OF ILLUMINATION

1-6 levels of illumination to ensure your reticle stands out against any target. Dots in between the brightness levels turn the illumination off, saving you time when you want to turn illumination on and off.

• EXPOSED ELEVATION TURRETS INCLUDED

- MIL
- 6.5 CM BDC
- .224 Valkyrie BDC
- .308 Win BDC
- .223 Rem. BDC

PURPOSE-BUILT FOR:

Users that in search of a tactical feature driven scope that can also be used as a BDC optic in the field.
