

Designed for field or range with industry-leading finishes.

NEW FOR 2018

NITRO™ SPOTTING SCOPES

Bushnell® Nitro™ spotting scopes provide information and images that are invaluable to experienced shooters. The difference lies in the optics: the ED Prime Glass is protected by Bushnell's patented EXO™ Barrier lens coating, which repels water, oil, dust and debris, ensuring flawless performance, no matter the weather. The durable rubber housing stands up to rigorous use.

INDUSTRY LEADING FEATURES:

EXO™ BARRIER - Protective coating bonds to exterior lenses, repelling water, oil, dust and debris for clear viewing in even the worst weather.

ED PRIME GLASS - Delivers best-in-class color, even in low-light situations.

IRONCLAD WARRANTY - Complete coverage for the lifetime of the spotting scope.

FULLY-MULTI COATED OPTICS - Multiple layers of anti-reflective coating transmit maximum light for clear viewing in low light.
