

NEW FOR 2018

PRIME™ LASER RANGE FINDERS

Bushnell® has always been at the forefront of quality and value, and Prime™ laser range finders are the next step in the revolution. This configuration can range targets out to 1,300 yards. It's accuracy you can trust, from the industry leader in laser rangefinder technology.

INDUSTRY LEADING FEATURES:

ARC™ MODE - Angle Range Compensation accounts for uphill and downhill angles when ranging, providing a true range to target

EXO™ BARRIER - Protective coating bonds to exterior lenses, repelling water, oil, dust and debris for clear viewing in the worst weather.

CLARITY - Wide objective lenses allow for best resolution and contrast in all lighting conditions.

SCAN MODE - SCAN across the landscape while viewing a continuously updated LCD display of the distance to the target.
