

Bushnell®

**FULL SPECTRUM
TARGETING**

TROPHY LASER RANGEFINDER

MARKET RELEASE DATE:

February 15, 2016

Overcast skies, dense foliage, late dusk, early dawn... none of these low-light conditions can prevent Bushnell's new Trophy Laser Rangefinder from doing its job. It comes equipped with Full Spectrum Targeting technology, which enables the Trophy Laser Rangefinder to acquire dark, non-reflective objects. Rainproof and accurate within a yard, the Trophy Laser Rangefinder gives you an accurate distance every time, no matter what.

FEATURES & BENEFITS

- » Full Spectrum Targeting technology
- » Range from 7-850 yards
- » 1-yard accuracy
- » Rainproof
- » 4x20mm objective
- » 3-volt battery included
