

XRS II RIFLESCOPE

Delivering precisely-aimed rounds at extreme distances is a skill honed with practice – and the proper scope. The XRS II is Bushnell’s flagship optic, crafted to the most exacting standards. ED Prime Glass delivers rich color and contrast, even in low-light conditions. The 4.5-30x zoom and wide 50mm objective lens are designed to acquire targets well beyond 1,000 yards. Making adjustments is a simple and accurate process, with a lock windage turret and an elevation turret featuring a RevLimiter™ Zero Stop that will not turn past zero. Military, law enforcement and competitive shooters demand precision, and the XRS II delivers.

INDUSTRY LEADING FEATURES:

REMOVABLE THROW LEVER - Enables quick magnification changes.

PRECISE - 10 MILs per revolution on elevation, windage turrets for exact adjustments.

LOCKING DIOPTER - Maintains scope’s focus, no matter what.
