TROPHY XTREME RIFLESCOPES

MARKET RELEASE DATE:

July 1, 2016

Delivering the clarity of riflescopes costing hundreds more, this new lineup is built for hunters who demand performance, not pomp and puffed-up claims. Its 30mm tubes and larger objectives deliver class-leading brightness. Side parallax focus and Fast-Focus eyepiece make for simple functionality. Its more powerful 4X magnification ratio brings the clearest image in its class closer than ever.

And Rainguard HD lens coating keeps your view clear when conditions aren't. With all this, and your choice of four reticles – two new long-range options, one of which is illuminated – it's everything for every reason you live to hunt.

FEATURES & BENEFITS

- » 30mm tube
- » Fully multi-coated optics
- » 91% light transmission
- » 100% waterproof, fogproof and shockproof
- » Fast-focus eyepiece
