TURKEY CALLS

Bamboozled Box Call

The Primos® Bamboozled box call combines bamboo and select hardwoods to create sharp, high pitched yelps. Bamboo has a higher compressive strength than wood, brick or even concrete. The density of the bamboo helps cast extremely loud, crisp yelps and cuts that gobblers can't resist. Don't just deceive that old gobbler; bamboozle him by "Speaking the Language."

Features & Benefits

- Authentic bamboo paddle
- Laser engraved logo and graphics
- Single billet box construction
- Crisp yelps and cuts
