### **Primos Hacked Off Mouth Calls Allow Hunters to Achieve the Perfect Fit**

**Flora, Miss.** – [Primos Hunting](#), an innovator in hunting calls and products, has introduced a new series of medium-sized diaphragm turkey calls designed to fit any palate. With two pre-printed trim lines, users can customize the Hacked Off turkey calls for a personalized fit.

With two models available – Buzz Cut and Saw Tooth – the Hacked Off calls are designed to allow hunters to achieve the perfect seal so the air goes across the reeds to produce the most realistic sounds possible. The smaller frame size makes the calls easier to use and ideal for individuals with a small palate.

The Saw Tooth features a triple reed design for higher pitched, clean yelps, while the Buzz Cut is ideal for soft raspy yelps and crisp cuts.

Available in January 2014, the Hacked Off turkey calls have a manufacturer's suggested retail price (MSRP) of \$13.95.

*For more than 35 years, hunters have counted on Primos Hunting products and accessories. From the first call founder Will Primos developed in 1976 to the host of innovative hunting products and accessories available today, Primos has become one of the industry's most trusted brands. A deep hunting tradition combined with a commitment to quality and ingenuity has helped Primos become an undisputed industry leader. At Primos, we Speak the Language.*
